Introduction

This company has 5 different Hosting Plan that they named like "Plan A". Here one standard hosting plan (Plan C) is being compared to others.

COMPARISON

1. Size of Pipeline or Bandwidth

It has not defined clearly but file transfer is allowed up-to 4 GB per month and disk storage per account is 50 MB.

2. Connection Availability & Performance

99.99% up time will be ensured for account holders. So possibility to loose connectivity is 0.01%. Different application tools like: ASP, PHP, CGI-bin, Form Mail. PERL, My SQL MS Access etc are also allowed.

3. Virtual Hosting

This is not mentioned in their comparison table. It needs to check in that site "<http://www.internic.net/whois.html>" by which it can be ensured.

4. Email Aliases

Each account holder is allowed to get 30 email accounts. Email storage, Web Mail, Auto Responders, Spam Filtering and Virus Scanning facility is also available.

5. Stability & Staying Power

As it's an internal matter that how many customers leave the ISP & it's not mentioned in the web page so this information cannot be given here.

6. Local Access

No they don't have the facility to call to a toll free phone number. It's a Bangladeshi ISP, so it could be a choice for the account users who live in Bangladesh for easy phone communication.

7. Customer Service and Technical Support

They have instant setup and data backup facility. Build tools like FTP and FrontPage 2002 are allowed. Different site tools are there for account holders like: Traffic Statistics, Data Base Manager and File Restore.

8. Reliability

It's not mentioned in the web site. But as it's over all serviceability is good so customers can rely upon the ISP.

9. Price

There is no charge for each month, annual payment is 5,000.00 BDT.

 Feature Page: http://web.bizbangladesh.com/web_hosting_packages.html

Introduction

This company has 3 different Hosting Plan that they named like Standard, Standard Plus & Enterprise. Here 'Standard' hosting plan is being compared to others.

COMPARISON

1. Size of Pipeline or Bandwidth

It has not defined clearly but file transfer is allowed up-to 2500 MB per month and disk storage per account is 50 MB. They have 20 Bandwidth Providers, Tier-1 Bandwidth, dual OC-3 & OC-192 connections.

2. Connection Availability & Performance

99.99% up time guarantee for account holders. 24/7 Server and Network Monitoring and Strong Power and Data Backup is available. So possibility to loose connectivity is 0.01%. Different application tools like: HTML, XHTML, VRML, WAP, multimedia, Shockwave, Flash, Perl, CGI-bin, Python, Tcl C, C++, My SQL Database, PHP with Cache Enabled, My SQL Server with Php My Admin, JavaScript, CGI Scripts, phpNuke and more are also allowed.

3. Virtual Hosting

This is not mentioned in their comparison table. It needs to check in that site "<http://www.internic.net/whois.html>" by which it can be ensured. But they have sub domain and domain pointers/parking facility.

4. Email Aliases

Each account holder is allowed to get unlimited email accounts. POP3 Email Accounts [you@yourdomain.com], Web-based E-Mail Access, Email Forwarding & Auto responders, Email SMTP/POP Servers, Email SPAM Filters & Catch-All System and Personal Mail Servers facility is also available.

5. Stability & Staying Power

As it's an internal matter that how many customers leave the ISP & it's not mentioned in the web page so this information cannot be given here.

6. Local Access

No they don't have the facility to call to a toll free phone number. It's a Bangladeshi ISP, so it could be a choice for the account users who live in Bangladesh for easy phone communication.

7. Customer Service and Technical Support

They try to ensure a better customer service. They have control panel, exclusive Search Engine Friendly feature and MS FrontPage 2002 Extensions and Unlimited FTP Accounts facility. Different features are there for account holders like: Search Engine Friendly Hosting, Instant Account Setup, Customizable 404 Error Pages, Password Protect Directories, Web-based File Manager, Server Side Includes, Free Search Engine Submission, Graphical Web Based Statistics and Ready for Search Engine Promotion.

8. Reliability

They are very confident about their service. They have 7 days free trial and 30-day money back guarantee.

9. Price

There is no monthly charge; annual payment is 1,200.00 BDT (US \$20) for limited time.

Name: **lunarpages**
 Site Address: www.lunarpages.com
 Feature Page: <http://www.lunarpages.com/basic-hosting>

Introduction

They have the only plan, here is their Basic Hosting Plan description given below.

COMPARISON

1. Size of Pipeline or Bandwidth

Bandwidth is 3500 GB per month and disk storage per account is 350 GB.

2. Connection Availability & Performance

99.9% up time will be ensured for account holders. So possibility to loose connectivity is 0.10%. They also have 2000 MBit connectivity, tape backup, power generator and Ddos protection facility. Different application tools like: PHP, PERL, PYTHON, ASP, JSP, Dedicated SSL Certificate, Unlimited MySQL Databases, Unlimited postgres SQL Databases, media support (flash, audio, video, ream media audio & video support, MIDI, Own MIME type and shockwave support), CGI-bin and unlimited FTP accounts,

3. Virtual Hosting

As this is not mentioned in their comparison table so it needs to check in that site "<http://www.internic.net/whois.html>"; by this it can be ensured. But they provide facilities like: dedicated IP, Anonymous Domain Registration, 10 add-on domains, unlimited perked and sub-domains.

4. Email Aliases

Each account holder is allowed to get unlimited email accounts. POP3, SMTP, IMAP, unlimited email forwarding, unlimited email auto responders, web mail (2 types), mailing list, spam protection and catch-all address facility is also available.

5. Stability & Staying Power

It's an internal matter that how many customers leave that ISP & it's not mentioned in the web page; so this information cannot be given here.

6. Local Access

If they have any toll free number for customers that may not work for overseas customers like Bangladesh because this ISP Company is situated in out of Bangladesh.

7. Customer Service and Technical Support

They have award winning 24/7/365 support. \$700 CoffeeCup Software free, free domain name for life (with the purchase of a 12 or 24 month plan), different eCommerce feature, different free website scripts, online user statistics, customer account page, customizable error page and SSI Server side facility available.

8. Reliability

They are very confident about their service and have 30-day money back guarantee.

9. Price

Monthly charge is \$ 6.95 USD with the purchase of a 24 month plan.
